

School Nutrition Association of Kansas

Conference Call Notes

November 3, 2017

Building membership and placing value in it were discussed.

Regional Training – need funding set. Offered in Spring of 2018 to transition to a spring conference. The beginning of the school year until February would be good timing. Groups planning a free training session would send in proposal so SNA-KS could set up a grant to cover expenses. Proposal would include outline of expenses. Travel and hotel for attendees would be paid to encourage attendance. Grant would be approved on a case by case situation. Executive Committee would have final say, but a committee could be formed to approve grants. Terri Markum and Jennifer Tatro areas might be a good pilot area.

Conference survey showed that 25% of respondents preferred a Fall Conference. And 47% said either Fall or Spring. And finally, 25% preferred Spring.

Jeannine will snail mail Stan the June 3 minutes with Officer Installation.
